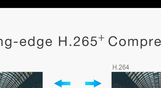
IP67 IK10 PoV

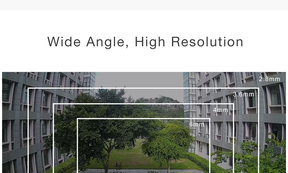
H.265+ Mini Dome Series 3.0

It's Great to Be Small!
Small but Powerful
Small, Simple, Powerful
Super Mini
Yes! We Have All Mini!
Your Mini is Here!
Mini is Here!



Including Vandal-proof Mini Bullet Network Camera, Vandal-proof Motorized Mini Bullet Network Camera, Weather-proof Mini Dome Network Camera and AF Motorized Mini Dome Network Camera, the Mini Series 3.0 is born to update your vision. The **120° ultra wide angle lens** broaden your horizon to bring unparalleled viewing experience. With revolutionary combination of IP67&IK10 and other shining features, the Mini Series 3.0 is ready to challenge your understanding to the MINI.

Leading-edge H.265+ Compression

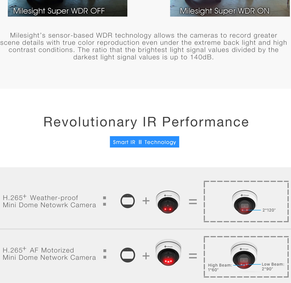


H.265+, the advanced video codec, saves 70%~80% bandwidth compared with H.264

Wide Angle, High Resolution

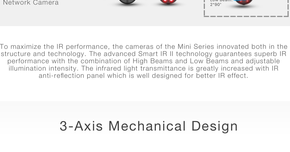
Applied with 2.8mm ultra wide angle lens, the cameras of Mini Series are able to catch up to 120° filed of view, which is the leading level of the industry. And the resolution up to 5MP guarantees superior image details under wide angles.

IP67&IK10



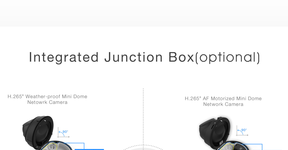
Sharply contrasting to the mini size, the cameras of the Mini Series feature the industry leading IP67-rated weather proofing and IK10-rated vandal proofing, which allow the cameras to protect themselves against adverse impacts to ensure the robust performance.

Up to 0.001Lux Ultra Low-light



The cameras of the Mini Series are able to deliver high detailed color images even in the low light environments reaching 0.001Lux (Color) or 0Lux (B/W), and near infrared light environments without any supplementary lighting.

140dB Super WDR



Milesight's sensor-based WDR technology allows the cameras to record greater scene details with true color reproduction even under the extreme back light and high contrast conditions. The ratio that the brightest light signal values divided by the darkest light signal values is up to 140dB.

Revolutionary IR Performance

Smart IR Ⅱ Technology

To maximize the IR performance, the cameras of the Mini Series innovated both in the structure and technology. The advanced Smart IR II technology guarantees superb IR performance with the combination of High Beams and Low Beams and adjustable illumination intensity. The infrared light transmittance is greatly increased with IR anti-reflection panel which is well designed for better IR effect.

3-Axis Mechanical Design

The cameras of the Mini Series all feature 3-axis mechanical design for fast and easy adjustment of the camera's viewing angle, allowing you to position the camera precisely.

Integrated Junction Box(optional)

The well-designed Integrated Junction Box especially the Clamshell structure, ensures efficient and simple installations. It enlarges the space to make cable connection neat and as easy as a piece of cake. With the help of the rubber plugs and rubber ring which guarantee IP67-rated weather-proof capability, the Integrated Junction Box is able to offer stable operation in any tough conditions.
